

Work with your
local fire department
to become fire-adapted.

Learn simple steps
you can take
to reduce the risk of
wildland fire threat and improve
your family's safety.

IAFC's Wildland Fire Programs are funded in cooperation with the USDA Forest Service. This institution is an equal opportunity provider.

In partnership with your local fire department.

Get ready, Be prepared, Act early!

Ready – Get ready.

Take personal responsibility by creating defensible space zones around your home and property.

- Zone 1: 0-30ft, store firewood and other combustible materials at least 30ft away from your home
- Zone 2: 30-100ft, remove loose vegetation from the yard
- Zone 3: 100-200ft, trim and remove dead vegetation

Set – Be prepared.

Make a 'go kit' and include items such as:

- Prescription medications
- Emergency supplies
- Important documents

Create and practice your personal action plan. Be sure you're familiar with local emergency notification and evacuation plans.

Go! – Act early!

Stay aware of the situation, follow your plan and cooperate with local authorities.
